

Message from the ISA & CELA Coordinator

“The most important function of education at any level is to develop the personality of the individual and the significance of his life to himself and to others.”
~ Grayson Kirk

Moral values still dwell in places called School. School not only takes the responsibility of grooming a student by brushing each one's skill so that they will have a fixed and bright future. School is never detachable from a person's life, he/she might have left the school at the age of fourteen but what remains with him/her are the values engraved on his mind

which guides him when he/she feels lost.

So what are the life skills a person learns from a school that a book cannot teach i.e discipline, positive attitude, friendship, respect and on top of all moral values.

What are the students' responsibilities to this world, should they pass away without being noticed? We feel that only a few can make a difference but in reality each and every person has some inherent qualities and every work has got its dignity, it depends on the person who recognize and respect it, then there are no boundaries which can prevent a person to be noticeable.

“Education today, more than ever before, must see clearly the dual objective: education for living and educating for making a living.” ~ James Mason Wood

The aim of education is not to prepare a man to succeed in life and society but to increase his perfectibility to its utmost. Education system should undergo a change with time. Students no more play the passive role. To match with their intelligence there is a room for Class Edge, Interschool Competition and exchange of thoughts & views, field trips etc. City International School had increased the spectrum of education by participating in ISA Award where the students got a chance to participate and make a mark for themselves on International grounds.

Do not aim for success. Aim for perfection. Remember you are on threshold of a new world. The sky will bend itself to touch the Earth so that when you start walking you will find all difficulties, struggles coming to an end, and you can achieve this only by having confidence in yourself.

When you have walked a considerable period of time and when you look back you see your footprints and observe others following it, so always make an impression that leads others to destiny and not to disaster. A person is remembered from the deeds and not by the personality.

Ms. Sushma Naik
ISA & CELA Co-ordinator

AN INTERVIEW WITH COUNSELOR (ADMISSIONS)

Our Reporters, Ms. Sanajana Chavan , Std. VIII A and Mast. Parth Kulkarni, Std. VIII B had conducted an interview with Ms. Shilpa Gadre who is working with City International School, Satara Road as a Counselor.

Sanjana : Good Morning Ma'am. For how many years you are working with this school ?

Shilpa Ma'am : I am working since last seven years.

Parth : Please tell us about the nature of your job.

Shilpa Ma'am : I work as counselor and I guide the parents for admission in the school. I accept the fees. In addition to this I look after House Keeping in school.

Sanjana : What are your strengths?

Shilpa Ma'am : My strength is my Communication Skill.

Parth : How do you manage stress?

Shilpa Ma'am : I feel relaxed when I engage myself in making different decorative articles.

Sanjana : How about your experience while dealing with the parents?

Shilpa Ma'am : I love to handle parents , politely. Though I face difficulties sometimes , I am able to manage it since I am positive person .

Parth : What can you say about our school that you would consider a strength?

Shilpa Ma'am : I have always been fortunate to have supportive management and Principal to be my guiding force which has helped me to continue and render my services in this esteemed institution .

Parth & Sanjana : Thank you ma'am for sparing your valuable time for us.

IMPORTANCE OF FOREIGN LANGUAGE

According to Indian culture, the world is global family. In this current era of globalization, exchange of knowledge has immensely increased within different parts of the globe.

English has gained importance as it has become an international language and is spoken in many countries. Apart from English, there are languages like German, French, Spanish which are also spoken by many people in Europe and America. Japan has also become very powerful and emerging technological center. China is now an important business hub in modern world. These are few examples which underline importance of different foreign languages. Learning at least one of these foreign languages at school level definitely strengthens intellectual power of the students and exposes them to new culture and new horizons. This ability offers them to choose high profile career path in future.

Current economic policies in India such as 'Make in India' project has invited a great deal of foreign investments in India. The foreign companies will always require smart and skilled work force which will have ability to communicate with parent foreign company in their own language. In this current period of globalization, skill of foreign language will always remain in demand.

Besides business developments and job opportunities, a knowledge of foreign language helps to bridge social barriers amongst different communities. This also helps the students to be culturally and socially aware. It enhances flexibility and creativity in students.

If many youngsters have this approach, society as a whole also gains a lot economically, politically and socially.

Teacher*

GANIT WEEK CELEBRATION

To promote interest in Mathematics, Ganit Week Celebration, an activity initiated by CBSE was conducted in CIS.

Mathematics Relay Race was organized for students of classes III to V, to engage them in math learning, while having fun.

The mathematical puzzles activity was conducted for the students of classes VI and VII, who were engrossed in the given magic squares, analysing them and creating new ones, while implementing their strategies.

The students of std. VIII explored the relevance of Mathematics to the world, golden ratio, and prepared charts and models of two and three dimensional objects around them.

The students enjoyed solving Sudoku and other mathematical games. They were involved as independent thinkers, asking questions, making hypothesis and forming conclusions, thus developing their spirit of enquiry.

An interactive Session on Mathematics was organized for students, wherein students explored mathematics in nature and Pascal's triangle.

Mathematics quiz competition was arranged for the students of std. IX and X and the participants were divided in four groups – Aryabhata, Brahmagupta, Bhaskaracharya and Ramanujan. The students exhibited a great show by answering most of the questions correctly.

The week concluded with felicitation of the winners during the school assembly.

SPORT ACTIVITIES 2015-16

Primary Section

Assessment of the students of primary section was done based on their performance in the obstacle race , potato race ,shuttle run , and kho-kho. The students performed well in the activities and were appreciated by awarding them with certificates .

UPCOMING CRICKETERS IN ACTION.....

To have the better understanding of the lesson, on 11th February 2016, a cricket match was organized as an activity based on std. VII English Lesson (Cricket). The lesson highlighted the importance of cricket and its history.

The rules and regulations of the match were observed and to begin with, the toss was flicked between the two captains. A good team spirit and true sportsmanship was observed. The umpires of the match were fair enough to do justice to both the teams. The students had a great experience where education and activities went hand in hand.

NO VEHICLE DAY

No vehicle day was observed on 16th December 2015. Most of the students came to school walking and on bicycles . Even teachers resorted to car pooling and availed of public transport to come to school on that day.

In this special assembly honorable guest Mr Dilpak (traffic police) guided and gave valuable advise to the students about traffic rules and road safety

TRAFFIC PARK

“Traffic Park” was created on 14th January 2016 wherein the students of primary section made models of vehicles ,houses, hospitals, railway stations, and portrayed traffic signs and signals.

KUSUMAGRAJ JAYANTI

On account of Kusumagraj Jayanti a special assembly was conducted by std III in Marathi. In order to commemorate his birth anniversary students recited Marathi poem penned down by him. **Vishnu Vāman Shirwādkar** popularly known by his pen name, **Kusumāgraj** was an eminent **Marathi** poet, playwright, novelist, short story writer. He was the recipient of several State awards, and National awards including the 1974 **Sahitya Akademi Award** in Marathi

MAZI MATRIBHASHA MAZA ABHIMAAN

To sensitize and motivate the students to understand the quintessential essence of our culture and to develop a value for our nation, Rashtriya Matribhasha Diwas celebration was done on 22nd February 2016. The Group Song in Marathi (Mauli-Mauli) was sung by students of Std.V-VIII explaining historical events in an exciting and inspiring manner.

Different activities like Essay Writing, Language games based on Mother Tongue, Poem Recitation, Newspaper reading, Poster Making etc were organized for the students. All the students participated enthusiastically.

GLORIOUS CHRISTMAS TIME

Oh what fun it is to meet

Santa on this day!!!

Preprimary kids were listening to Christmas stories , singing Carols and suddenly there came in a Santa singing and dancing. All the kids were thrilled and surprised to see Santa waving at them. They danced with him and were happy to get chocolates from Santa. They also had a Xmas party in their class with their classmates and teachers.

JINGLE BELL JINGLE BELL JINGLE ALL THE WAY

What is Christmas?????????

It is a festival of joy , happiness and sharing ,so we can see the students celebrating Christmas by wearing santa caps and greeting everyone Merry Christmas”

CHEF DAY CELEBRATION 2016

A fun filled experience of cooking activity was conducted for our little chef's to make them realize that cooking is an art. The pre-primary children were asked to get all the necessary food ingredients to school. They all wore a chef's cap and made some dishes which their mother usually gives them as tiffin with the help of their teachers. Children were taught to make different dishes such as *Chocolate Laddoos*, *Papdi Chaat*, *Sandwiches*, *Monaco Toppings* etc. Children enjoyed the Chef's Day a lot as it was different experience and activity for them. Mom cheers me!!!!

BABY'S DAY OUT

School picnics are enjoyed by one and all. This is the only time when preprimary kids go on an outing without their parents. They enjoy such picnics as they are free to play with their friends, watch magic shows, puppet shows, dance to the music and have food with their classmates. This year too children went for picnic and enjoyed it thoroughly.

Nursery kids went to *Empress Garden* and Junior and Senior Kg. students went to *Sanskriti*.

PLAY HARD, PLAY SMART, PLAY TOGETHER

This years most awaited event of the Preprimary Section the “SPORTS DAY “was celebrated on 1st, 2nd and 3rd February respectively. Various types of races were conducted, keeping in mind the age of the children.

Nursery: Rabbit jump, balloon race, toy race, London bridge race, ball and bucket race, getting ready to school

Junior Kg : signal race, vegetable race,

Senior Kg : Three legged race, sack race, ball race, balloon race, pyramid race, treasure hunt, huddle race, summer race, getting ready to school etc.

The event was inaugurated by Principal . All the kids participated in the races and they enthusiastically cheered their friends on the ground. They were cheering and enjoying the event thoroughly.

Prize distribution was held on 4th February. All the winners were felicitated by the Principal and the Supervisor of Preprimary section .

MUSIC IS DIVINE

*Music is divine and purifies our soul .
To impart the knowledge about musical instruments , students were encourage to make different models of musical instruments.
The aim of this project was to make students aware about different Indian and western musical instruments .
Children enthusiastically made the models . They also followed “Best out of waste” while making the models.*

ACTION SPEAKS LOUDER THAN WORDS

*The students of primary section learn various dances throughout the academic year.
The dance teacher teaches Bollywood and semi classical forms of dance to the students in all the three languages namely English, Marathi and Hindi*

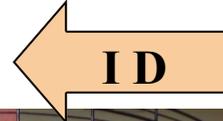

Craftsmanship

*A unique way of designing the articles based on the theme .
Best out of waste was carried out for the students of Primary section.
Students enjoyed the activity by using their own creativity to make
different items like wall hanging, bunny bags , paper puppets etc.*

SINGING COMPETITION

*Victory comes to those who make the least mistakes
A Singing competition was held on
22nd Feb 2016 to mark the
'International Mother Language'*

COLORFUL SPECTACLE OF ANNUAL EVENTS

Annual day of CIS satara road was celebrated on 17th and 18th of December 2015 the theme presented by classes 1st and 2nd was '*Ruturang*' and classes 3rd,4th and 5th portrayed the theme '*Kalanjali*'. The Annual function commenced along with the presentation of Annual report 2015-16 by our Honorable Principal regarding various activities conducted in school .It was followed by a colorful saga of beautiful dances and skits. The evening was a spectacular extravaganza of splendid performances by the students . The program ended with Vote of thanks and National Song.

LITERATURE IN COLOR ..AT A GLANCE

TAJANNAI

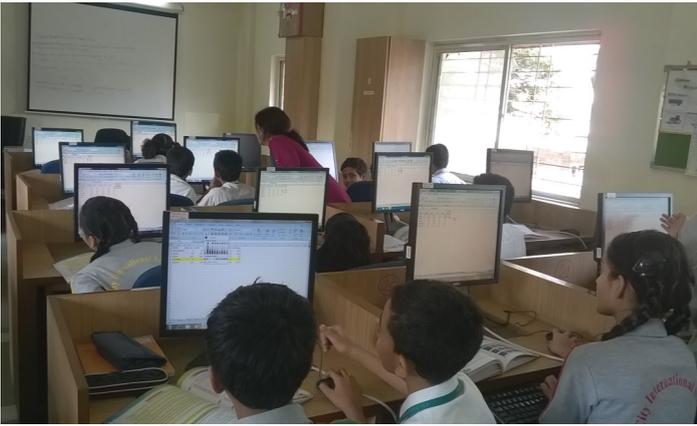

ONE TEAM, ONE FIGHT ANNUAL CONCERT HIGHLIGHTING WOMEN EMPOWERMENT

Women are as talented as men. To salute and honor womanhood

This year, the theme for Annual Gathering - Secondary Section was "ADI SHAKTI". Different forms of women were presented from Goddesses to Today's Age Women. Women play a pivotal role in the growth of family & Society. The function was groomed by songs, dances & traditional acts. Few advertisements gave lighter moments to the concert. The students performed and presented the program in the true spirit of womanhood.

MENTORING GEN-X WITH NEW TECHNOLOGY

As the 21st century looms ahead, it is clear to see that it has advancements that humanity may never have dreamed of and one of these shining developments is the well-recognized computer. To enrich our students with technical skills and with an aim to make them techno savvy, computer learning is essential. In CIS, Students learn to make visual presentations. It fosters students' analysis and problem solving skills as they work individually and in teams to gather information and come to conclusions. Computer programming class can help develop critical thinking skills as students learn how to place tasks into a logical sequence and technical skills are developed through students' using various software tools.

OUR SPECIAL ASSEMBLIES

It is common practice to begin day's work in school with a Morning Assembly. Here in our school, besides prayers and patriotic songs we also give children opportunity to step on the stage and perform on various topics through activities like skits, mimes etc. We also appreciate the Class Assembly by awarding the best performance for the year.

HOLISTIC APPROACH

Under the guidance of EVS teachers Ms Manisha students prepared wonderful models like Igloo, Stilt houses, Caravan, Houseboat, Tree houses and were displayed in an exhibition. They enjoyed learning all the concept and reason behind the architectures of the houses.

This EVS activity was conducted on 8th Jan .

EMPHASIZING THE IMPORTANCE OF BOOKS

'Books are man's best friends'

*Students of class IV made colorful story books
They compiled different stories with illustration and decorated the books artistically .
All the books were exhibited outside their own classroom .
Children transcend confidently.
Creativity was seen at its best.
Students highlighted the various benefits of compiling stories which included improvement in reading and writing and brainstorming .
Children participated enthusiastically .*

MYbook

THE MOST MEMORABLE DAY IN MY LIFE

I still remember the day that was the most tremendous day of life. It was the first day in City International School, Satara Road. Well being in the middle school is something I used to avoid in my dreams also. I had to go through all four divisions in search of my class and then finally I found my class, IV C. The Indian life style was different to me. I made a friend in the first period, Science period. I was feeling weird because everyone in the class except me was using pencil. Basically I was the only one who was using a black ink fountain pen which was just an honest mistake of mine. All the subjects were easy except Hindi. When they were talking about Hindi, I was a complete moron, I could only talk a bit of Hindi that too wrongly. I asked my teacher what do I have to do because everyone was writing something. I thought they were drawing some patterns but then I realized that they were writing in Hindi. I tried really hard to complete a sentence or two but it gave me a headache. It took me nerd to get that thing out of my mind but it wasn't.

I should have listened to my mom when we were in France. She used to tell me that I will be in trouble when we will go back in India. I used to think that we will never go to India.

Although my day wasn't that bad because the next period was ICT which I was expert in. I had decided that I will make friends in break time. But I couldn't because they only came & ate my veg. grilled sandwiches which my mom had given for me.

Well, now I am used to all these things. I have got several friends also. I can at least speak better Hindi and write a little. Moreover now middle school is no longer a bad dream for me. But the first day of middle school was the most memorable day of my life.

Mast. Soham Aallekar

WHY ARE FESTIVALS IMPORTANT ??

In India, we celebrate different festivals. Some festivals are common for the whole country while others are celebrated in different states. There are mainly three types of festivals : National, Religious and Harvest.

Independence Day, Republic Day & Mahatma Gandhi Jayanti are known as National Festivals. Diwali, Ramzan (Id-Ul-Fitr), Guruparab Christmas are some religious festivals celebrated through out the country. Harvest festivals are celebrated in different states such as Bihu in Assam, Pongal in TamilNadu, Sankranti in Andhra Pradesh and Karnataka, Onam in Kerala, Baisakhi in North India etc.

Festivals bring people together. Celebrating festivals helps them to relax, enjoy and have fun. It also helps people to exchange ideas, expand businesses and help each other. Festivals help to teach younger generation about the culture and heritage. It is also a good way to become social.

National festivals cultivate a sense of responsibility and pride towards the country and create a stronger sense of brotherhood. Thus festivals are a way to amuse, unite and strengthen the relations with friends & family members.

PRECIOUS MEMORIES

The first day, when I was a small kid, with bottle around my neck, a small bag, a handkerchief tied over my pocket and a nervous face crying with all my energy, gave teachers an idea of a new student. This day was a “crying day” for me as it was different place which I was not used to. It was a totally new environment with new friends & new teachers. This was my first day experience in City International School, Satara Road, Pune.

As days passed, I was used to the environment and teachers which made me happier than before. The teachers treated me in such a way that I forgot my home and wanted to stay in school. Day by day, with in a flash of time I was in the secondary section. The teachers told us inspirational stories which helped us in concentrating over our studies. The teachers were friendly to us which benefitted us in sharing our problems with them. They also taught us tolerance, sharing and caring. The teachers taught us in an interactive manner which helped us to understand the topics and are still remembered.

As the saying - “Boys will be boys”, the naughtiest behavior of mine was shown std. VIII which changed to a serious one in std. IX. Our teachers started molding us so that we will be prepared for Board Exams. Though the teachers were strict they were very caring.

The school has provided with a third language - German, along with other co-scholastic subjects which helped us in enhancing the life skill values. Different responsibilities were handed over to us to increase our confidence.

Well, even though I don't want to say good bye to school, I have to say. When I will leave this secure environment & fly high in the outside world with the help of all life skill values, it will be my school that will be proud of my success.

*Mast. Siddhant Sanghvi
X A*

I still remember my first day in the school. Everything seem to be new to me : new teachers, new classmates - a completely new and different atmosphere. My mind was full of doubts; are the teachers over here too strict? Can I make good friends ? Can I adjust myself to this new ambiance? And many more such doubts cropped up in my mind. I still remember the warmth in the teacher's face who welcomed me with a friendly smile.

I don't ever know how the days rolled up and I gradually developed a strong attachment with the school, friends, friendly & ever helping teachers who tolerated all our mischievous acts. The mischievous yet memorable acts are hidden deep in my heart and perhaps in the heart of each & every out going student.

Though our hearts are heavy for departing our beloved school yet we are taking countless happy memories with us which are treasured deep in our hearts. I really want to extend my sincere thanks to each and every teacher who gave us inspiration, motivation and above all good encouragement. They provided us the right direction to gain knowledge and shape our future.

It is very difficult to say good to our beloved school but that is the turning point of our life and we all will be choosing different tracks to move in different paths of the career.

We promise that we will choose the right path in our life, become successful & bring glory to our beloved school.

*Mast Rishabh Singh
X A*

AN EXPERIENCE TO REMEMBER ...

I was a newling to this when I entered it at the age of 11yrs. My student teacher bonding started with Neha ma'am and ended up with Vaishali Andraskar ma'am. Actually it is erroneous to say 'ended' because I know there blessings will always be with me. This school has taught me a lot. I was privilege to be under the wing of Principal Mrs. Leena Bhosale ma'am and coordinator Mrs. Vaishali Palve ma'am. All my teachers in my journey of 4 yrs never turned a blind eye to my needs. There are many things which distinguish this school from others. The teachers are very friendly which brings ease in teacher student conversation while in other schools there is only hesitation and fear. The school is also lucky to have a very co-operative principal. Moving on to the academics and co-scholastic area, the school has given me tremendous training which will help me compete the world and lead a successful life. There are clubs which pave way of students to prove their power of imagination. I too was a part of home science club which taught me cooking basic food items and made me independent. I was also the part of space club lead by Seema Naik ma'am. This club gave me an idea of immense possibilities of human and technology collaboration. The hospitality by maushis and bhaiyas gave me a homely feeling. Also my most adorable companions, my friends, with whom I have shared my happiness and sorrows have taught me smile in difficult situations and how to enjoy life. With this experience of 4yrs in C.I.S, I can say that I was blessed to be here. I thank this school for everything they have given to me.

*Ms. Shivani.Motagi
XB*

I don't know how I'll part with this school. Now I realize how fast these two years of my life in CIS has gone. School is the nursery of life. What we learn in school remains with us for the rest of our life. Our school tried to make us self-propelled, self-controlled and self-guiding persons, who will be able to accept the challenges of life without hesitation. I came from a very strict missionary school where I never made laughter. However, when I had my first day in CIS, I saw children swinging on doors. That time I understood that spending time in this school will be a hard nut to crack. However it was not so. Soon I found the most wonderful friends one could ever get. Two years have been passed filled with sarcasm, laughter, fun coupled with intensive studies. I could not feel how these two years have passed. Teachers are very cordial and supportive. Teachers are having thorough knowledge of the topics and are able to satisfy our doubts while teaching. They are also teaching us in an interactive manner and make us able to understand the topics in simple way. Our principal is always ready to take up the problems faced by the students and tries to find the best solution. I wish my school days in CIS could have dragged on a little longer. But now just a few days left for our school life and I am carrying a big suitcase filled with memories. I will carry this suitcase for the rest of my life and I know whenever this suitcase will be opened a big wide grin will automatically come on my face.

*Ms. Dewanshi bhardwaj
XB*

CREATIVITY ON DISPLAY

The students are always motivated to gain knowledge through play way methods. Making Charts is one of these methods where students collect and present the information using their creativity. The charts are displayed on the boards present in classrooms, corridors & entrance lobby etc.

This activity highlights the importance of team work .

HEALTHY MIND IN HEALTHY BODY

It is important our students should be physically and emotionally healthy. They can perform well in school, if they are in good health . Being healthy makes them feel good and allows them to perform more effectively. Keeping this in mind, Health Check up was organized by Apollo Clinic for the secondary section students (std. VI to X) of City International School, Satara Road. During this session, the students were advised for their Oral Hygiene and BMI.

AN INTRODUCTION TO LIFE SAVING SERVICE

Campaign was held on 24 Feb,2016 in City International School, Satara Road to spread awareness amongst the students about the EMRIS's toll free number 108. It is the telephone number for emergency services in India, currently operating in nineteen states and also in two union territories.

The 108 emergency response service is a free emergency service providing integrated medical, police and fire emergency services. The service is a public private partnership between state government and private EMS providers. This 108 system is introduced by the Central Government of India. Since November 2014 this service had handled over 5.4 lakh emergency cases in India.

It was nice experience to visit the ambulance provided by the EMRI. There were many devices that were used to treat the patient. Which include oxygen mask, ECG monitor, etc. Students were happy to observe that the government takes and cares the responsibility of public.

Ms. Hunar Agarwal
BBC Reporter, VIII B

A DROP IN THE OCEAN - CHENNAI RELIEF FUND

The deep depression over the Bay of Bengal had brought heavy and continuous rains and devastated the South Indian State : Tamil Nadu and many part of city Chennai. The state was battling one of the worst flood in history.

As a helping hand, City International School, Satara Road took a step ahead for humanitarian assistance to help the people facing the problems caused due to the flood.

The CIS students collected different things like clothes, utensils, soap, oil, foot wear, blankets, bed sheets, general medicines and other useful things under the guidance of the Principal & Charity Club Members.

The things collected were given in co-ordination to GOONJ, an NGO.

A great and appreciable response was given by each and every student. was great success achieved because of hard work and willingness to donate.

Mast. Sumedh Patil

Charity Club Member, VIII C

OPPORTUNITY KNOCKS !!!!!

Under the guidance of our honourable principal Mrs Leena Bhosale and coordinator Mrs Vaishali Palve, our school had arranged an orientation program for parents and students studying in std X, with the purpose that parent should know different options for carrier progression for their ward.

CIS, Satara Road arranged this programme at right time (at the time of the commencement of prelims) when parents are eagerly thinking about future options for their wards. Though lot of parents know colleges affiliated to the state board & their curriculum, this lecture by Mrs. Arora and Mrs. Khaladkar (Principal CIS Wanaworie) provided an equivalent option to parents for their loved ones. I am sure many of us would like to exercise this option.

The programme ended with a note that admissions to students of all CIS schools in Pune would be given preferences. Parents were excited to understand this option of extended CBSE School for XI and XII for their wards.

*Ms. Vaishali Wagle
(M/o Ms. Mukta Wagle)*

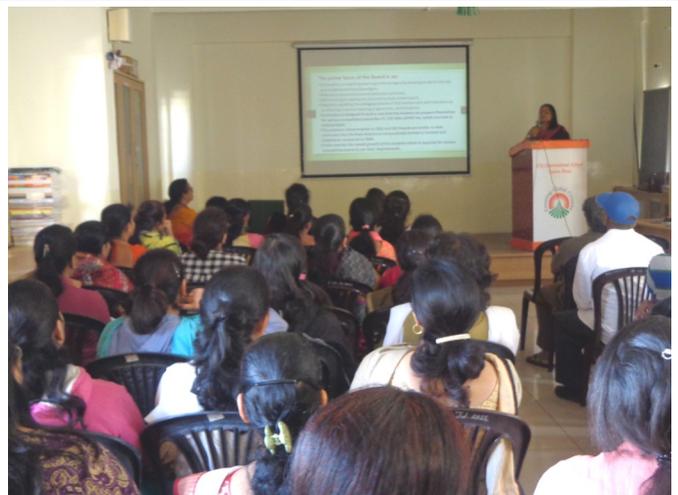

On Friday, 22nd January, we attended an education session organized by CIS Satara Road with CIS Wanowrie. It was a well-informed session and it provided very valuable information that I felt to share with all aspirant parents. CIS Wanowrie is running a Secondary School in Science for the past 5 years and they are now availing admissions for 10th standard students from CIS Satara road

In the session we attended, we were made aware that most of the competitive exams organized at central or state level are based on NCERT (CBSE curriculum).

The school provides hierarchal support to each student in solving his queries and doubts. Emphasis is given on quality of education and student comfort and overall growth. The teaching staff is well qualified with Master's Degree specialization and B.Ed. and they are continuously upgraded with teacher's training programs.

Overall it was a great session. Opting for a secondary school with CBSE curriculum provides various advantages over state board and CIS Wanowrie is a good option for those who seek a good platform for kids to prepare for competitive exams.

*Mr Anand Gijare
(F/o Mast. Anish Gijare)*

HAPPY TRAILS - FAREWELL PARTY

It is always hard to say goodbye, and it was the same for us when the school bid adieu to students of std. X. The day was filled with mixed feelings; teachers were excited and nostalgic at the same time. A farewell party was organized on 20th Feb 2016, to make the students feel momentous. The fun and the frolic went on for the entire day followed by singing and various performances by the students. All in all it was a great day filled with fun and cherished flashes.

A STEP TOWARDS CLEANLINESS - MASS PLEDGE

CBSE has joined hands with the Ministry of Urban Development to make all students an active stakeholder in making India clean.

To support this mission our students have taken a mass pledge to remain committed towards cleanliness and devote time to clean India & to propagate the message of Swachh Bharat Mission in cities, villages and towns.

GUIDANCE ABOUT MILITARY COLLEGE DEHRADUN

A guidance lecture was arranged for boys who prefer to apply for 'Rashtriya Indian Military College' and achieve entrance in military schools.

The details regarding qualification to apply and the process to obtain admission was explained by Adv, Dasharath Ghorpade.

CIS pledges for a Clean India

What sometimes two people meet, profoundly in different settings or circumstances.

In line with the Swachh Bharat Abhiyan and to cultivate responsibility to create a clean India, the City International School, Mumbai, set up a 'Swachh' committee. The members of the committee are the students of the school. The committee is headed by the school's principal, Ms. Laxmi Bhatnagar, and they will keep it active in their homes.

Principal Laxmi Bhatnagar addresses the 'Swachh' pledge to students.

The school supports the Swachh Bharat Abhiyan and promotes cleanliness and hygiene within the school. A pledge-taking ceremony was organized in the morning assembly on January 26. Principal Laxmi Bhatnagar spoke to students about the importance of hygiene, sanitation and

cleanliness. She urged them to take the pledge and to take every step towards cleanliness that will help in making the country clean. The school believes that this mission can be effectively achieved by different thousands of individuals, not just one.

They learn about Emergency Management

An instructor tells students about fire safety in the school.

A workshop on emergency management was held at City International School, Mumbai, on Monday, February 22, 2016. The workshop was organized by the school's Emergency Management and Fire Safety Committee. The workshop was conducted by an instructor from the Fire Department. The instructor explained the importance of fire safety and emergency management to the students. He also demonstrated the use of fire extinguishers and fire blankets. The students were very interested in the workshop and they learned a lot of new things. The school is committed to providing a safe and secure environment for its students.

The workshop was held in the school's auditorium. The students were divided into groups and they participated in various activities. The instructor also showed them a video on fire safety. The students were very attentive and they asked many questions. The instructor answered them patiently. The workshop was a great success and the students were very happy to learn about fire safety and emergency management. The school is proud to have organized such a workshop for its students.

A 'No Vehicle Day' at school

A 'No Vehicle Day' was observed at City International School, Mumbai, on Monday, January 13, 2016. The school organized this event to raise awareness about road safety and to encourage students to use alternative modes of transport. The school's principal, Ms. Laxmi Bhatnagar, addressed the students and urged them to participate in the event. She said that road safety is a major concern for everyone and it is the responsibility of every citizen to take steps to ensure the safety of ourselves and others. The students were very enthusiastic and they participated in various activities. They were also given a quiz on road safety. The event was a great success and the students were very happy to participate in it. The school is proud to have organized such an event for its students.
