SCHOOL IS COOL

Going the eco-friendly way...

At CIS, Satara Road

An eco-friendly Ganpati idol making activity was held at City International School, Satara Road on August 30 for the students of classes I to V to bring about awareness on 'Go green' activities.

Students were educated on the hazards caused by the use of idols made of plaster of Paris, especially to the aquatic animals and plants. Students made idols out of vegetables, flour and clay. They were excited and used their creativity to the fullest.
